

## **DATES OF SUPREME COURT DECISIONS AND ARGUMENTS**

### **UNITED STATES REPORTS VOLUMES 2 – 107 (1791 – 1882)**

The dates of decisions do not appear beneath the case name in the first 107 volumes of the *U.S. Reports*. Beginning in 1854 (58 U.S.) the *Lawyers' Edition of the Supreme Court Reports* includes the date, though there are some errors and omissions.

The opinions are listed as they appear in the *U.S. Reports*. There were different editions and printings of the early volumes so the page numbers are not always the same. There is usually star paging, but in a few instances the page numbers are slightly different. When there are variations, the numbering from the earliest edition is used. The short titles of cases are in the form recommended by the Reporter of Decisions.

Some dates do appear in the *U.S. Reports*, either in the margin or in the body of the opinion. One edition of a particular volume may have dates while another edition does not. These dates sometimes differ from the dates found in the Minutes.

The dates of arguments are occasionally noted in the margins in the *U.S. Reports*, but these dates are often wrong or incomplete.

#### **EXPLANATION OF SOURCES**

The primary source for dates is the handwritten Engrossed Minutes. The originals are at the National Archives and a microfilm copy is available.

When the date of decision was not found in the Minutes, the handwritten Engrossed Docket was consulted. The original Docket is also at the National Archives and available on microfilm. When the date was not found in the Minutes but was located in the Docket, it is followed by an asterisk (\*).

When the date of decision was found neither in the Minutes nor in the Docket, it is followed by a pound sign (#). These opinions may have such variations in the title that they are not easily identified. In these instances, when there is a date in the *U.S. Reports*, it appears in brackets.

All the dates of argument are found in the Minutes.
