AFFIDAVIT

This is sworn to and is true and correct under the penalty of perjury. This affidavit is given pursuant to title 28 U.S.C. section 1746. see Dickerson v. Wainwright, 626 F.2d 1184 (1080), which held that an affidavit sworn to as true and correct under the penalty of perjury has the full force of the law and does not have to be verified by a Notary Public to have the same effect...

Please construe this letter as a motion for extension of time. I am a pro-se litigant and not skilled on a professional level to file a writ in the United States Supreme Court. This letter is a request for a 60 day extension in which to learn the rules in order to file it properly. My case no. is 22-5879, I was denied on February 22, 2024.

I am incarcerated at Luther Lockett Correctional Complex. There are approximately 1200 men incarcerated here which allows me limited time in the legal library because I have to share with others who also need access to the courts. There are only two computers to be shared with at least 20 men a day. There are approximately 5 legal aides that carry a heavy work load having to assist the entire prison population

I am doing my best with the limited time and access to the legal library. I can do this. Thank you for your time.

Kindest regards,

Joseph Roach
