No.: 23-6852

April 26, 2024

Motion for An Extension of Time to File and Comply With Rule 33.1

On April 26, 2024 I received the Supreme Court's decision via regular US mail allotting me only until May 13, 2024 to comply with rule 33.1. After researching Supreme Court Rule 33.1, and as a Pro Se litigant who is not a lawyer which, would burden me with an additional expense and having no personal extra/additional financing to create forty booklets, I am requesting a motion for an extension of time to file and comply with rule 33.1 to best of my ability.

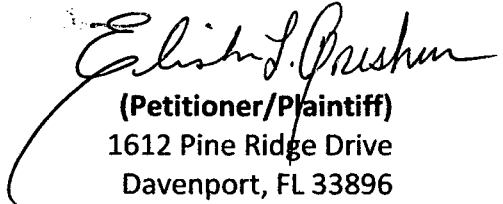

However, if I am granted this motion of extension and I am not able to financially meet the required expenses it would take to create forty booklets in accordance to the supreme court's demand, I will notify the courts of such before the newly granted set due date.

It is my hope that the courts understand my current financial position by easing this expensive burden of rule 33.1 and grant this motion to me so that, I may have the opportunity to be able to proceed with my case.

In closing, I request the time be extended 90 days beyond May 13, 2024 which, is the current set date by the courts for me to comply with rule 33.1. This motion, **if granted**, would set the new due date to comply with rule 33.1, at August 13, 2024.

Respectfully Submitted,

Elisha L. Gresham
