

CASE S283843- CALIFORNIA SUPREME COURT

APPLICATION FOR EXTENSION OF TIME TO FILE WRIT A CERTIORARI

Helga G. Suarez Clark request extension of time ideally unlimited I think minimum is 60days, allowed by rule 10a)(against lower courts that depart from accepted and usual judicial course of judicial proceedings),to file petition for writ a certiorari against attached april17 denial of petition for review by Calif.Supreme Court against dismissal of appeal in Cal.2d appellate court ;remitter april19.

I am a crime victim and murder attempt survivor unable to write now due to tears of shoulder tendóns ,alone and am requesting hospitalization for injuries of 4limbs so time limitations shouldnt apply:

See Dixon v. United States, 1999 U.S. App. LEXIS 13215 (10th Cir. Okla.

1999:” a person is not required to sue within the statutory period if he cannot

in the circumstances reasonably be expected to do so”

I went 10xto emergency room consults2024 because of violence against me .A taxi driver broke my motorwheelchair march13 and my knees started swell and bleed and insurance refuses give a new one so I worsened tears shoulders I cannot write use arms no stand walk intolerabl pain

I never got april17 denial of petition for review in mail as I asked answer by email ,got them may16 by email.

Please extend time file certiorari indefinitely better then the usual extra 60days more,would it be starting april17 or jan10?
