14
15 MOTION FOR EXTENSION FOR WRIT
16 OF CERTIORARI SUBMISSION

17 As instructed by the clerks at the SCOTUS that I need to ask for more time to finish my Writ
18 Of Certiorari. I had been given an outdated version of the rule book from July of 2019 and also hadn't
19 understood or been told that I needed to transcribe all video evidence in order to essentially submit the
20 videos in writing as they aren't accepted in any other way which will take a substantial amount of
21 time given the number of videos. I've also been suffering from severe panic attacks during every
22 attempt to make progress with these documents greatly slowing said progress. I would respectfully
23 ask for an additional 60 days on top of the 90 days from the time of the decision from the SJC here in
24 Massachusetts. The original decision was given to me on September 6 2024. The email from the SJC
25 will be included as instructed by the clerks so you may see the original date. I'd like for an additional
26 60 days which would be February 3 2025. I believe given my disabilities and the abuse suffered at the
27 hands of the Chicopee Housing Authority causing PTSD and severe panic attacks, this should be a
28 reasonable accommodation. I also lost a substantial amount of time to work on this or the FAR
29 application issues while they held my computer hostage for a month after illegally evicting me
30 without warning or notice during the deliberations at the SJC and without Judge Kane being given the
31 rescript from the appeals court which was not sent due to it being escalated into a FAR application
32 which he was made aware of and had not been decided upon and rejected until September 6 2024,
33 while Judge Kane knew about the FAR application being processed and wrongfully evicted me on
June 4 2024, ignoring due process and intentionally harming me by abusing his position. This
preventing any sort of work while I did not have access to my computer during that time either,

34 cutting into my initial 90 days to start on this and submit it. There was also damage to the hard drives,
35 hard drive docks and internal components which required repair. I was told to make sure this was
36 addressed to Justice Jackson to ensure it was received and processed in a timely manner as it was only
37 her that handled extension requests but to not say her name on the envelope which I will not, that will
38 addressed to the Clerks.

42 **Certificate of Service**

43 I hereby certify that a true copy of the above document was served upon the attorney of record for the
44 Plaintiff via Certified mail from the USPS to the Chicopee Housing Authority on 11/18/2024. This is
45 the same place of delivery deemed acceptable during proceedings to submit evidence to them, as
46 confirmed by Elaine O'Donnell. I have never known her office address though I was told it moved at
47 some point, and had been submitting copies of filings via the E-file system for Massachusetts which is
48 not available in this case to the SCOTUS, so I will be defaulting back the sending directly to the
49 CHA's main office which is how all evidence had been submitted via USB drives during the original
50 trials. All communication from Elaine were either submitted originally through mail but eventually
51 email, then only through the E-file system which was the only form of communication I accepted as
52 they repeatedly lied about sending anything through uncertified mail or "hand delivering" their
53 notices, which they had not actually done. That's why all communications to me were later only
54 accepted or allowed through the E-file system and could be confirmed, and tracked both by me and
55 the courts so no more documents went "missing" or were undelivered and I was not notified because
56 of it. I ask all filings from them be submitted by Certified mail as well to the address listed on here.

57
58 Respectfully signed 11/18/2024
